EDUCATION

 Hong Kong University of Science and Technology Ph.D. in Electronic and Computer Engineering, HKUST

GPA: 4.18/4.3; Hong Kong PhD Fellowship HKUST Aerial Robotics Group

 Huazhong University of Science and Technology Bachelor in Electronics and Information Engineering, HUST GPA: 92.81/100; Rank 1st Hong Kong, China Sept. 2015 – August 2020 Supervisor: Prof. Shaojie Shen Robotics Institute

Email: denny.wcding@gmail.com

Mobile: +86-13267114798

Hubei, China Sept. 2011 – June 2015 Supervisor: Prof. Wei Liu

Research

• Decision-making for Autonomous Vehicles

• Efficient Uncertainty-aware Decision-making: Behavior and trajectory pediction can not be 100% accurate. Other human drivers may have unpredictable behaviors. To systematically consider these uncertainties, we propose an efficient uncertainty-aware decision making framework which can generate safe long-term behavior plans in real time (20 Hz). (ICRA 2020)

• Prediction for Autonomous Vehicles

- Learning-based behavior prediction: Novel learning-based network to model and predict future behaviors of other agent vehicles. The key feature is modeling the interaction among vehicles to enhance prediction accuracy and extend prediction horizon. (Accepted by ICRA 2019)
- Two-level behavior & trajectory prediction framework: Online hierarchical prediction framework for modeling multimodal behaviors and contextual factors in complex urban environments. Combining deep learning models with traditional optimization techniques. Using learning (LSTM/GRUs) to model the multimodal nature in behavior prediction, while using optimization techniques to conduct trajectory prediction in complex environments. (Also accepted by ICRA 2019)

• Motion planning for Autonomous Vehicles

• Safety and semantics: A safe and unified motion planning framework for modeling numerous semantic elements in complex urban environments based on spatiotemporal information. The key feature is that it can work in different complex environments without special tuning efforts and has a safety guarantee. (IEEE RA-L)

• Planning for Micro Aerial Vehicles

- Trajectory planning for monocular vision-based quadrotors: Efficient trajectory replanning framework for onboard autonomous flight in unknown indoor and outdoor environments with only one camera and one IMU. (ICRA 2018, IROS 2018, IEEE Transactions on Robotics)
- Trajectory planning for dual-fisheye vision-based quadrotors: Trajectory planning framework
 for a quadrotor with dual-fisheye cameras to achieve omnidirectional vision, navigation and exploration.
 (Journal of Field Robotics)

Selected Publications

• Journal papers:

Honors and Awards

• Graduate - Hong Kong University of Science and Technology (HKUST):

Hong Kong PhD Fellowship	Sept. 2015 - Present
Academic Award in School of Engineering, HKUST	Sept. 2019
Conference Travel Award: ICML 2018, Stockholm, Sweden	July 2018
Conference Travel Award: ICRA 2018, ICRA 2019	2018, 2019
Conference Travel Award: RSS 2017, Massachusetts, USA	$July\ 2017$

• Undergraduate - Huazhong University of Science and Technology (HUST):

ChangJiang Student (20 awardees in all 2015 graduates in Hubei province , China)	June~2015
BaoGang Outstanding Scholarship (25 awardees from Nationwide election, China)	Nov. 2014
Outstanding Winner in Mathematical Contest in Modeling (MCM, 13/6755, USA)	2014
Frank Giordano Award, MCM, USA	2014
Outstanding Undergraduate Student in HUST	2015
National Scholarship (Top 2%) & School Merit Student (Top 3%), China	2014
National Scholarship (Top 2%) & School Merit Student (Top 3%), China	2013
National Scholarship (Top 2%) & School Merit Student (Top 3%), China	2012
Excellent Student of Qiming School, HUST (Top 5%)	2012

TEACHING

Teaching Assistant: ELEC2600 Probability and Random Process, HKUST	Spring 2016
Teaching Assistant: ELEC4100 Digital Communications and Wireless Systems, HKUST	Summer 2016

EXPERIENCE

Internship: DJI Ltd (Shenzhen, China)

Summer Internship: Texas Instruments (TI, Shanghai, China)

June 2018 - Oct 2018

Aug. 2013

Aug. 2014

Summer Camp: Microsoft Research Asia (MSRA, Beijing, China)
